

Risk Management

Peace of mind that allows
you to focus on growing
your business

Why Risk Management matters

All businesses face risks, it's a fact of life. What's important is how you deal with them. If you ignore them and hope they don't happen, chances are they will. And if you aren't reacting to the risks to your business then you are probably wasting valuable time worrying about them. If you face up to them and set your business up to manage risk, you'll not only create peace of mind that allows you to focus on growing your business, you will also create a business that performs better.

Why PIB Risk Management

At PIB Risk Management, we are focused on providing simple, creative and effective solutions to risk management that really work in the workplace. We tailor our solutions to each and every client, so they can be sure that what they have in place is perfectly suited to them. Our growing team of risk professionals are based throughout the UK, so there's never a risk manager too far away.

Four stages of Risk Management

No matter where you currently find yourself on your risk management journey we can help make it better. Whether you are just starting out or you're well established with your risk management activities, we are confident we can improve your approach to managing risk and help your business perform as well as it possibly can.

Identify

You have some risks identified or you're just starting out, and you want to be sure you have identified all of your potential risks.

Our risk managers can work with you to understand your business, the risks you face and the controls you have, or should have.

Improve

You're confident you have identified all your risks, but are unsure how to address them or what you should do next. Our risk managers focus on a wide range of risk areas and can select solutions that best meet your needs.

Monitor

You've found your risks and are addressing them, but you don't have anything in place to monitor what you're doing. We can support you in managing risk personally or talk to you about our market-leading online risk management system.

Systemise

You're on top of your risk but want to put everything in one place and move away from reams of paper and spreadsheets so the management becomes easier. Our xCenta system is perfect for this, or you can of course have a dedicated risk manager to do it for you.

xCenta: Risk Management at the touch of a button

As well as our team of risk management professionals our proprietary online risk management system can transform the way you manage risk in your business. xCenta provides an efficient solution to managing all your risk management systems and is suited to companies of all sizes across one or multiple locations.

How we work

We offer a broad range of services, split into three specific categories: Risk Management Advice, Targeted Consultancy and Training & Support.

Risk Management Advice

We believe successful risk management depends on having a well organised process and effective delivery to identify and respond to the risks in your business. We can help protect your business through the controlled management of risk.

Targeted Consultancy

Our combination of consulting and auditing can help an existing risk management function respond to evolving risks, legislation, incidents and accidents. Our services include:

Health & Safety Consultancy

Having access to health and safety assistance is a legal requirement for most businesses; so PIB Risk Management can work with you to focus on avoidance, mitigation and defensibility.

Business Continuity Planning

Whether you are updating your major incident plans or developing something from new, we have experienced specialists who will work with you to establish robust plans and responses.

Security

Physical and personal security is vital to the infrastructure of an organisation. Our team has the ability to conduct threat assessments and risk analysis of your organisation to ensure the safety of your workforce and assets.

Quality Assurance

PIB Risk Management can assist you achieve ISO accreditation by conducting an analysis of your management systems against International Standards.

You can find out more about these services by looking at their own specific brochures.

Fire Risk Management

Most workplace premises have a legal responsibility to carry out a fire risk assessment under current fire regulations. That is why we have a highly qualified and experienced team of risk managers to carry out any fire risk assessments.

Information Security

Information Security is complex and ever-changing. Failure to comply with the regulatory requirements can lead to prosecution and fines. Our team and our partners can help you remain compliant to preserve your business and brand value.

Environmental

In key areas such as recycling, energy, carbon footprint and renewables, PIB Risk Management can help you achieve your environmental management objectives and responsibilities.

HR Support

We provide telephone support from experienced consultants, assistance with difficult issues, audits of existing documentation, personalised contracts, handbooks, policies and procedures and much more.

Training

We offer a wide range of standard and tailored training courses to keep the knowledge and skills of your employees up to date.

Face to face

We offer a wide range of accredited training courses by leading bodies including IOSH (Institution of Occupational Safety and Health). All courses are available at our training centre or a location of your choice.

eLearning

Whatever your requirements, our online training system can help deliver training efficiently across your workforce and contracts, with online testing, progress tracking and training history.
